# Drive smarter

**Smartfleet is an award-winning, trusted fleet management provider**

We're here to help you save money, maximise productivity, and ensure driver safety through our extensive knowledge, systems, and processes.

We tailor our solutions to meet your unique business requirements. Enjoy the flexibility to choose the level of support you require. Be it fleet management, vehicle finance, procurement or reporting, we can scale our services up or down to suit you.

Here's what you can expect when you work with us:

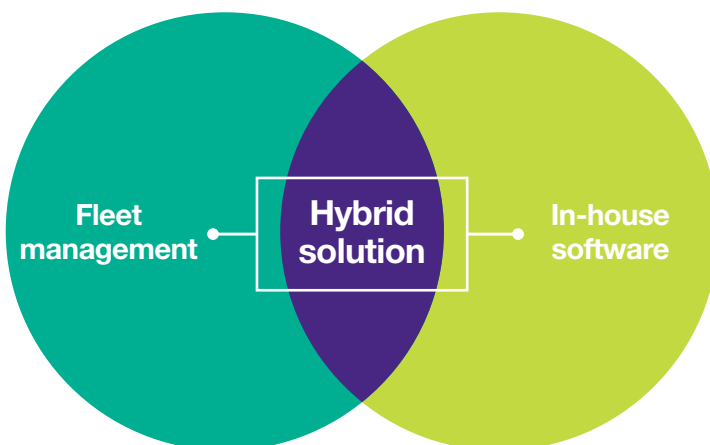

## **Market leading innovation to drive fleet efficiency**

Our genuine goal is to find new ways to save you time and money. We do this by reviewing how much your vehicles are actually being used and providing innovative solutions to help you identify and manage your fluctuating vehicle needs.

## **Customised software that will take the pain out of process**

We have developed our own fleet management software, which means we can customise it to suit your unique management and reporting requirements, and continually evolve our service to grow with your business.

## **The Smartfleet Approach**

## **Fleet finance and procurement to maximise your budget**

Whether you own or lease your fleet, or both, we can help. Our online acquisition system creates a competitive tender environment to get you the best vehicle pricing; while our operating lease helps simplify your cash flow, reduce asset risk and unlock capital.

## **Powerful real time reporting tailored to your needs**

We offer a wide range of online reports that provide up-to-the-minute information whenever you need it, wherever you are. We can tailor reporting to your specific needs, and all reports are customisable, downloadable and securely backed up.

## **Say yes to a smarter fleet management today.**

# Flexible fleet management solutions for organisations of all shapes and sizes

## Buried in admin and concerned about risk?

Reduce your administration and reporting headaches while meeting compliance obligations, by **partnering with Smartfleet to manage your fleet efficiently**. We use a combination of personalised service and powerful online tools to manage and report on every aspect of your unique fleet.

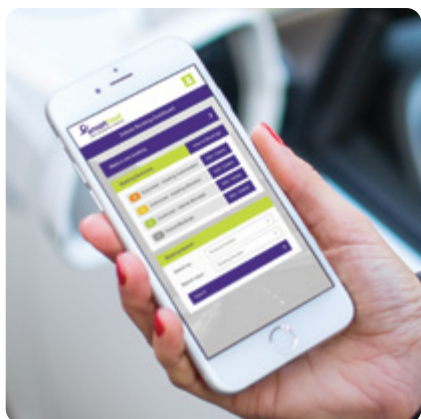

## Operating lease model?

Reduce your asset risk, unlock your business capital and **simplify your cash flow** and administration. With fixed monthly payments, an operating lease improves budget control and gives visibility over your costs. With Smartfleet, you'll enjoy the convenience of one provider, and the flexibility to introduce a new funding model.

## Managing your fleet?

Talk to us about how we can help you better manage your fleet with **our purpose built software solution** to simplify your data and reporting.

## Optimising your fleet?

Reduce cost and fleet size by moving to a car sharing model with Smartfleet **Pool Vehicle Booking** solution. Optimise fleet utilisation and minimise productivity losses. Plus, have the option to scale up with Smartfleet's car sharing partners and be covered in peak usage periods.

## 9-month Buy-Back\*

Reduce the cost of your fleet with **unique solutions** to standard operating leases and fleet ownership for **not-for-profit** organisations.

## Need to improve safety?

Deliver significant efficiency gains and ensure driver safety with **Telematics by Smartfleet**. Vehicle data is captured and transmitted in real time, providing an accurate and transparent view of driver behaviour and vehicle performance.
