

A smarter, leaner fleet that works for you – and your budget

Shrink your fleet size, reduce costs and boost productivity with Pool Vehicle Booking by Smartfleet.

Moving to a shared car model is easy and stress-free with Smartfleet. Our Pool Vehicle Booking system is a powerful online platform that allows you to maximise your fleet's potential and make significant cost and time savings.

- Identify cost-saving opportunities with comprehensive fleet reporting
- Manage compliance and reporting in real-time, and minimise manual administration
- Book, track, and monitor your fleet from one mobile-friendly portal
- Simplify the car sharing process for both drivers and fleet managers
- Set rules for the order cars are allocated in for lease compliance or re-sale value considerations
- Access GoGet car sharing service via your Smartfleet portal to reduce taxi usage
- Available as a standalone system or as part of your broader Smartfleet management service.

Maximise vehicle usage

The centralised management and reporting system allows you to optimise your fleet based on actual vehicle usage, while smart vehicle allocation maximises usage and availability, reducing trip duplication and identifying excess vehicles to save precious time and budget.

Streamline the driver experience

Bookings, authorisations and returns of vehicles are processed with ease. Our intuitive online booking system streamlines vehicle usage for both the driver and the fleet manager.

Cover off compliance

Easily configure trip authorisation rules according to your requirements. Controls include licence validation, cost centre and vehicle policy acknowledgement.

How Pool Vehicle Booking by Smartfleet can dramatically reduce the cost, size and environmental impact of your fleet.

Oversized fleets are expensive – for both your bottom line and the environment. Pool Vehicle Booking by Smartfleet helps you identify the perfect fleet size, and therefore reduce fleet costs and lower greenhouse gas emissions.

Deploying our Pool Vehicle Booking system, one government department reduced its state-wide fleet significantly, and triggered a number of environmental benefits.

Since commencement:

Number of vehicles dropped from

1180 to **916**

Within the first two years:

Fuel usage dropped **16.01%**

Combined CO2 emissions reduced by **15.42%**

Distance travelled by all vehicles **10.41%**

Access to rental cars tightened with total vehicle rental days falling

from **6,000** to **2,100** =

Delivering savings the equivalent to six full-time vehicles.

Our optional fully-integrated electronic key storage solution helps you keep track of your vehicles and allows drivers to access car keys 24/7, saving money on administrative resources and providing full visibility of vehicles with real-time trip input.

Pool Vehicle Booking by Smartfleet allows you to only use the vehicles you need – nothing more, nothing less.
